

# ChessKid

## Spring Camp

# Bot Battle!

Today's mission: defeat three ChessKid bots. The twist? Each has a different personality. Some are more serious than others!

Your player will face off against 3 ChessKid bots and play a match against each one.

Defeat the bots without using hints!

Each bot has a different skill level and personality. Choose from bots like Qwerty, Fun Judit (named after GM Judit Polgar!), Pet Bots, and Zoo Bots!

### Bonus challenge

After each match, have your player write a quick "bot report." Were they sneaky? Defensive? Overconfident? Then rank the bots from easiest to toughest.

### Tip

Use a notebook or whiteboard to track the bot battles.
