

Spring Camp

Puzzle Power Up!

Start your week with a mental warmup. ChessKid puzzles build confidence and pattern recognition!

Set a timer for 10 minutes and see how many puzzles your player can solve in a row.

As they go, track their streak and stop if they miss one. Then, the streak resets! It's a game of perseverance.

Bonus challenge

Ask your player to name their streak like it's a video game (ie. Checkmate Sprint; Rovok Run). Design a badge with your new puzzle title.

Tip

Celebrate streak milestones with a shout out or a small prize to keep up the motivation!
