

Checklist for Parents

As you set up ChessKid to align with your child's chess journey, we're here to guide you every step of the way. This checklist will help you ensure that you've covered all the important aspects to make the most of ChessKid's resources.

Explore the links below to ensure a comprehensive setup for ChessKid success:

- Play a game against your child on ChessKid to spark your love of chess together. ([ChessKid Play](#)). When playing chess matches with your child on ChessKid, teach them to handle wins and losses with grace and resilience.
- Customize the website to express your kid's personality with our fun themes. ([ChessKid Themes](#))
- Engage in ChessKid's interactive lessons together, enhancing your child's critical thinking and concentration skills. ([Fun Lessons](#))
- Learn easy ways you can help your kids love to play chess. ([Read our Article](#))
- Download the app for on-the-go Chesskid moments. ([ChessKid App](#))
- Collaborate with your child to set their chess goals for the year. ([Print Goals Form](#))
- Join the Parents and Kids public clubs and send friend requests for games. ([Join Clubs](#))
- Participate in championships, live events, and ChessKid TV shows for kids. ([Events Schedule](#))
- Monitor your child's chess journey and milestones on ChessKid. ([Report Cards](#))
- Find out why your kid lost a game by using our computer engine to review your child's chess games. ([Analysis Board](#))
- Challenge our friendly bots to help enrich your child's learning and bolster their confidence. ([Challenge a Bot](#))
- Encourage routine chess puzzles on ChessKid, discussing the importance of persistence and learning from mistakes. ([Encourage Puzzles](#))
- Play longer chess games with your child, emphasizing the need for focus and concentration. ([Slow Chess](#))
- Learn the correlations between chess strategies and life decisions, reading up on how chess skills are beneficial for kids. ([Chess Studies](#))
- Take a look at how other parents and kids use ChessKid. ([Testimonials](#))
